MyLiveDoc
Your health, your time

**Sarah, 41**

## Everything she needed, included in her membership

**Sarah is a working mom of three with no time for sick days. When she woke up feeling unwell, she opened her MyLiveDoc portal.**

She logged in to her portal and started an **urgent care** visit. Her provider sent a prescription to her local **pharmacy**, ready for pickup before lunch. While she was still in the portal, she scheduled **primary care** wellness checks for her kids. None of it came with a copay or a bill.

Services that are always available, always afforable and always awesome.

- **urgent care, 24/7**
- **primary care for the family**
- **confidential mental health**
- **prescriptions for free**
