WEIGHT HEALTH PROGRAM

The Epitomee® capsule

A simpler way to feel full and stay on track

A prescription-only, drug-free capsule that works naturally in your body to support weight health —so progress feels sustainable, not overwhelming.

HOW IT WORKS:

1. Take it twice a day with water, 30 min before lunch and dinner
2. Expands in your stomach to create fullness
3. Signals your brain to help you eat less
4. Naturally clears from your body after several hours

Feel Full sooner | Reduce snacking | enjoy food | build habits

- ✓ **Proven Safety**
- ✓ **Drug Free**
- ✓ **Non-systemic**
- ✓ **Clinically Proven**
- ✓ **Provider guided**

Epitomee is fully integrated into your care, giving your provider another way to personalize your weight health journey. If it's right for you, your provider will guide you every step of the way.

revive

Rx sourcing advantage

Lower specialty drug costs without disrupting care.

Specialty medications are one of the fastest-growing drivers of healthcare spend, and one of and one of the hardest to control.

Most employers rely on traditional pharmacy channels, where costs remain high, and options are options are limited.

Revive identifies smarter pathways, reducing specialty drug costs while maintaining the same the same standard of care for employees.

This solution is designed to extend the value of your pharmacy strategy.

- ✓ Identification of high-cost specialty drug claims through PBM data analysis
- ✓ Alternative sourcing pathways for eligible medications
- ✓ Member outreach and support throughout the process
- ✓ Coordination with pharmacies to ensure continuity of care

30-50%

potential savings on specialty medications

$4 PEPM

© 2026 ReviveHealth, Inc | www.Revive.Health. | 20

Psychiatry

Psychiatric care without delays or barriers.

Access to psychiatry is one of the biggest gaps in mental healthcare today, with long waitlists and referral requirements preventing employees from getting timely support.

Revive's Virtual Psychiatry connects employees directly to board-certified psychiatrists through the same integrated care experience without the friction of traditional specialty care.

- ✓ Psychiatric evaluations and treatment planning
- ✓ Medication management for eligible conditions
- ✓ Care for anxiety, depression, ADHD, PTSD, OCD, bipolar disorder, and disorder, and more
- ✓ Support for adults, adolescents, and children

Includes 4 psychiatry visits per member per per year

Care is available for ages 5+

$5 PEPM

© 2026 ReviveHealth, Inc | www.Revive.Health. | 21

Physical therapy

A simpler way to recover so employees get better, faster.

Up to 70% of patients never complete prescribed physical therapy, delaying recovery and driving unnecessary costs.

Barriers like scheduling, travel, and out-of-pocket costs prevent employees from getting the care they need.

Revive removes those barriers, making physical therapy accessible, convenient, and built for follow-through.

This solution is designed to improve recovery outcomes while reducing musculoskeletal (MSK) spend.

- ✓ Fully virtual physical therapy programs—no clinic visits required
- ✓ Personalized care plans for common MSK conditions (back, neck, joint pain, injury rehab)
- ✓ Access to certified coaches within 1–3 days for 1:1 virtual support with guided progression
- ✓ 1,000+ on-demand exercise and recovery videos

85%

program adherence through frictionless access
