virtual endocrinology.

Expert hormone and metabolic care–without the wait.

Endocrinology care is often critical—but hard to access. Waitlists stretch months. Local specialists are limited. And getting a referral adds another hurdle. With Revive's Virtual Endocrinology, powered by Telemed2U, your employees can bypass the bottlenecks and connect directly with board-certified endocrinologists quickly, conveniently, and without copays.

COMMON CONDITIONS WE TREAT

Revive provides access to leading endocrine specialists for a broad range of hormone and metabolic conditions, including:

- Diabetes (Type 1 & 2) and insulin resistance
- Thyroid disorders: hypothyroidism, hyperthyroidism, goiters
- Adrenal gland disorders: Addison's disease, Cushing's syndrome
- Pituitary gland issues: tumors, hormone imbalances
- PCOS and other reproductive hormone disorders
- Osteoporosis and calcium metabolism
- Menopause and testosterone imbalance
- Metabolic syndrome, obesity, lipid disorders—and more

From chronic management to second opinions, our team helps your workforce achieve better health outcomes—faster.

Why choose Revive's virtual endocrinology?

No-cost Specialist Support
Endocrinology visits are free for employees, supporting effective chronic disease management without adding to financial stress.

Timely Appointments
Employees avoid long waitlists with endocrine consults generally scheduled within 15 days for non-urgent needs.

Unified Care
Endocrinology is integrated into your Revive virtual care clinic, streamlining referrals, prescriptions, and follow-up in one place.

Elevate your benefits and empower your people.

Contact us to add Virtual Endocrinology to your benefits and create a smarter, healthier workforce.
