revive

virtual psychiatry.

Expert mental health support—no referrals. no delays.

Finding a psychiatrist shouldn't feel impossible. With Revive Virtual Psychiatry, powered by Telemed2U, your employees can connect with board-certified psychiatrists for evaluation, diagnosis, and treatment quickly, discreetly, and from anywhere in the U.S.

COMMON CONDITIONS WE TREAT

Our psychiatrists support a broad spectrum of mental health needs, including:

- Anxiety, depression, and mood disorders
- ADHD and attention disorders
- PTSD and trauma-related conditions
- Bipolar disorder
- Obsessive-compulsive disorder (OCD)
- Panic disorders and phobias
- Sleep issues tied to mental health
- Substance use evaluations and dual diagnosis care

We offer treatment for adults, adolescents, and children—delivered with empathy, expertise, and efficiency.

Why choose Revive's virtual psychiatry?

No-Cost Access
Employees receive psychiatric evaluations and medication management at no cost, removing financial barriers that often prevent them from seeking help.

Timely Appointments
No months-long waitlists. Appointments are typically available within 15 days for non-urgent needs, supporting early intervention.

All in One Place
Services are integrated within your Revive virtual clinic, eliminating the need for a separate psychiatric point solution.

Bring specialty mental health into focus

Contact us to add Virtual Psychiatry to deliver real access to psychiatric care to your employees without delays, gatekeepers, or compromises.
