revive

Consistent everyday care.

$502
SAVINGS PER DIVERTED VISIT

Most people don't have a consistent doctor.

Revive gives employees access to a dedicated primary care physician who knows their history and is available in days, not months. With $0 virtual visits, members can proactively manage their health, catch issues earlier, and get personalized, continuous care, without unnecessary visits billed through the health plan.

Faster access. Real continuity. Fewer claims.

The same physician every time, from anywhere in the U.S.

15%
Savings rate on primary care

1–3 days
To an appointment, vs. 20+ day national avg.

$0
Out-of-pocket cost to employees

Care that covers the everyday.

- Ongoing Care
- Condition Management
- Prescriptions
- Referrals and Coordination
- Faster Appointements
- Nationwide access
- Expert Providers
- No out of pocket costs

Put better primary care in your employees' pockets.

REVIVEHEALTH.AI

revive

Primary care that stays with you.

Most virtual care solves the appointment and nothing else. A different clinicians each time, no record of the last visit, no follow-up after.

Revive members keep one board-certified physician who knows their history and closes the loop on every lab and referral. That continuity is what catches expensive problems early.

A member-first approach to primary care.

01

Fast access to care.

Easily schedule appointments online for 1 to 3 days out, rather than waiting months for an opening.

02

Same doctor every time.

Members keep one physician who knows their history, instead of starting over with whoever is available.

03

Diverse network.

A culturally competent network helps members connect with providers who understand them.

04

Lower Healthcare spend.

Fewer urgent care visits billed through your medical plan

*Labs and specialist visits are not covered by Revive and are billed through the medical plan.

A doctor they can reach in days.

Exclusive primary care providers, without the hassle of in-person visits billed through your major medical plan.
