a simpler way to feel full and stay on track

Now available through Revive:

Epitomee®

A prescription-only, drug-free capsule designed to help you feel full sooner, eat less, and build healthier habits—without changing everything about your routine.

Designed for real life

Epitomee works naturally in your body to support weight health —so progress feels sustainable, not overwhelming.

Feel full sooner
and stay satisfied with smaller portions

Reduce snacking
and better manage hunger throughout the day

Keep enjoying the food you love
—just in smaller portions

Build habits that last
with support from your care team

HOW IT WORKS

1. Take it twice a day with water, 30 minutes before lunch and dinner
2. Expands in your stomach to create a feeling of fullness
3. Signals your brain to help you eat less
4. Naturally clears from your body after several hours

What makes it different

Proven safety profile
No related serious adverse events in clinical trials; side effects similar to placebo

Drug-free
No hormones, stimulants, or appetite suppressants

Non-systemic
Does not enter your bloodstream

Clinically proven
Shown to support weight loss and waistline reduction

Provider-guided
Prescribed and monitored by your Revive care team
