Hi Nicholas,

ReviveHealth Sponsored Employees has added Revive's Virtual Care to your benefits package.

This means you and your covered dependents have 24/7 healthcare support from board-certified providers, without copays, waiting rooms, or the hassle of traditional healthcare.

Your account is ready. Activating takes less than three minutes and ensures you can reach expert care whenever and wherever you need it.

Hi Nicholas,

You shouldn't have to rearrange your schedule, take time off work, drive across town, and spend hours in a waiting room just to pay a copay and see a provider for 5 minutes.

It's frustrating, time-consuming, and expensive.

But Revive eliminates the barriers that prevent you from receiving convenient, quality healthcare.

Instead of planning your day around healthcare appointments, you can reach credentialed providers from wherever you are (and whenever you want). Your house, your office, even while traveling.

And your covered dependents have the same coverage.

Just complete your registration to ensure you're prepared when healthcare needs arise—not scrambling to set up an account when you're already feeling unwell.

Hi Nicholas,

Revive delivers virtual care to 4 million members and provides over 5 million care services annually.

And your colleagues at ReviveHealth Sponsored Employees have access to this benefit.

Our exclusive U.S.-trained, board-certified providers have decades of experience delivering exceptional care. Every consultation takes place on our HIPAA-compliant platform, ensuring your health information remains completely confidential and secure.

Our members consistently report satisfaction with the quality of our care, the speed of service, and the convenience of having comprehensive healthcare support available around the clock.

Revive provides you and your eligible dependents with coverage for the same level of care—with no copays or deductibles.

Take three minutes to register. You'll have peace of mind knowing expert healthcare is available whenever and wherever you need it.
