pharmacy

The Pharmacy service makes medication management simpler, more affordable, and more accessible for employees.

By integrating pharmacy support directly into our virtual care platform, employees can receive their prescribed medications promptly, reducing barriers to adherence and enhancing health outcomes. This streamlined approach helps employees stay consistent with their treatment plans while supporting employers in managing overall healthcare costs.

Service Highlights

- **Access to over 70 acute care medications** (like antibiotics) available at 65,000+ local pharmacies nationwide prevents delays in care.
- **Pharmacist consultations** offer immediate guidance on medications, promoting greater medication adherence.
- **Pharmacy discount card** reduces out-of-pocket costs for non-formulary medications, enabling employees to access necessary treatments without financial strain.

PHARMACY ROI

For every prescription filled, **employers save an average of $25**, reducing overall healthcare spend while ensuring employees get the medications they need at no cost.

Boost Employee Satisfaction

Offering seamless, hassle-free medication access demonstrates a commitment to their well-being and enhances the overall value of your benefits package.

Cost Savings

Access to over 1,000 free maintenance medications means fewer costly claims, reducing employer pharmacy spend.

Stronger Medication Adherence

With more convenient access to medications, employees can better manage their prescriptions, helping them stay on treatment.
