pharmacy

The Pharmacy service makes medication management simpler, more affordable, and more accessible for employees.

By integrating pharmacy support directly into our virtual care platform, employees can receive their prescribed medications promptly, reducing barriers to adherence and enhancing health outcomes. This streamlined approach helps employees stay consistent with their treatment plans while supporting employers in managing overall healthcare costs.

Service Highlights

- **1,000+ free maintenance medications** ensure employees have easy access to medications, supporting a broad spectrum of health needs.
- **Access to over 70 acute care medications** (like antibiotics) available at 65,000+ local pharmacies nationwide prevents delays in care.
- **Pharmacist consultations** offer immediate guidance on medications, promoting greater medication adherence.
- **Pharmacy discount card** reduces out-of-pocket costs for non-formulary medications, enabling employees to access necessary treatments without financial strain.

PHARMACY ROI

For every prescription filled, **employers save an average of $25**, reducing overall healthcare spend while ensuring employees get the medications they need at no cost.
